

Rajiv Bajekal MCh (Orth.) FRCS (Orth.)
Curriculum Vitae

I have been practicing as a Consultant Orthopaedic Surgeon since 1998 with a Special Interest in Low Back pain and Spinal Surgery, Hip resurfacing and replacement and Knee arthroplasty.

Specialisation

Low back pain and Sciatica- I use minimally interventional techniques including injections into the back to try and prevent the need for Surgery where possible. I have an interest in Balloon Kyphoplasty to treat osteoporotic spinal fractures, endoscopic discectomy and the X-stop procedure to treat Spinal stenosis and foraminal stenosis.

Low back problems due to disc problems and spinal stenosis forms the bulk of my NHS and Private practice.

I have built up a considerable experience of hip resurfacing and hip replacement surgery.

***NHS practice**
